1 lesson a day to keep the kids engaged, would be great.

The live lessons are a great idea but I do feel it would be good if they actually completed their worksheet whilst online with the teacher and class, I believe this is what other classes and year are doing. Thank you to you all for all your hard work this lockdown and home learning is much better and easier for the children with google classroom.

Keeping the motivation going when also working full time can be a challenge. Hence the need for more live lessons and work which has to be turned in as it helps keep the focus. You're all doing brilliantly and we hugely appreciate the work that is being set.

The learning provided each day is generally completed by lunchtime, I would like there to be additional, optional maybe, work for the afternoons to more closely resemble the workload of a normal school day.

I think the school are doing a great job and as a parent I support what you feel is best for the children and staff. We appreciate you. No pressure from this end.

Teachers are doing an amazing job. I feel .... has enough work as I like her to bake/do arts n crafts aswell as work

If we can have the work the night before so we can look at it and understand the work. Some of us haven't been in school for years and need to understand so we can help our children.

Thank you very much for all your time providing work to the children! If at all possible to increase the Live lessons to two per week please? Thank you very much!

I would like to see a few more live lessons as much as the teachers can. I also find there is not enough work set throughout the day although I am topping this up myself. Many thanks. Maybe a bit more work as it's completed very quickly.

I usually work 5 days a week but have increased my hours each day so I can have Wednesday off to help with his live lessons. We do all his other home learning when I get home from work together and he is really good about coming to sit down and start even though it's late in the day. We are now in a routine and it's working for us as a family so obviously would like every time to stay as it is as it's working well.

Thank you for all you are doing
