

Dear 3HL,

I know many of you have probably seen the video on the school website where I tell you all a bit about myself but I thought I would write you all a letter so that I can let you know a bit more about me!

I have been teaching for four years now and all four of those years I have spent at Springfield Junior school. I really love working here and have enjoyed teaching every class that I have had - my first ever class will all be starting high school this September! My favourite subjects to

teach are literacy and maths. When it comes to literacy I LOVE reading, whether it be reading out loud, reading to myself or listening to you read - you really can't beat a good book! I enjoy maths because I like challenging myself and really enjoy problem solving. I love the feeling of success when

you manage to answer something that you have been working really hard on solving. We enjoy a lot of hands on learning at Springfield juniors and have lessons where we race toy cars, build tall towers, invent our own dragons and even go on a trip to the woods where we get to carve wooden knives!

I want all of the children in my class to be happy, to try their hardest and to enjoy coming to school and discovering new things! Our school motto is believe, learn,

persevere and achieve - all of these things are just as important as each other and I always encourage the students in my class to try and demonstrate them all. Remember - even us teachers don't know EVERYTHING and its great exploring and learning together.

I recently got married and my husband is in the army and plays A LOT of rugby! We have a daughter called Milly who is just about to turn one. During lockdown we have enjoyed going out on our bikes, having picnics in the garden and playing in the paddling pool. In my spare time I really enjoy spending time with my family and friends, going out for dinner and going on trips away.

I really hope you are all just as excited as I am about coming to Springfield Juniors in September. We will spend a lot of time getting to know each other, the school and the other students so there really isn't anything to worry about. Try and think of it as a new adventure for us all!

I can't wait to receive your letters and find out a little more about you all. Enjoy the last few weeks of the school year, have a wonderful summer and I can't wait to meet you all soon.

Mrs Logan
